**ABSTRACT:**
Organization Description: Jefferson County Department of Human Services, located in Colorado, offers a wide array of services to the Jefferson County community. The Department consists of six divisions: 1) Community Assistance, 2) Workforce Development, 3) Children, Youth, and Families, 4) Head Start, 5) Justice Services, and 6) Business Office. The mission of the Department is to openly create opportunities for people to be self reliant and engage actively in society, and to protect individuals and the community from harm.

Use(s) of ACF Program Grant Funds: Jefferson County proposes to develop and implement a model that will demonstrate effective collaboration between Temporary Assistance to Needy Families (TANF) and child welfare to improve outcomes for children and families involved in, or at risk for involvement in, these two systems. The project will target dual-system families in the Jefferson High School articulation area, the highest need area in Jefferson County. Using Family Group Conferencing as the core of the model, Jefferson County plans to conduct comprehensive family assessments and develop a single workable case plan for each family that includes screening and referral to culturally-appropriate mental health, substance abuse and domestic violence services. The project also intends to implement parent partner peer mentoring program for participating families.
