**ABSTRACT:**

**Organization Description:** The Children's Place Association provides supportive services to HIV/AIDS affected children and families in the greater Chicago area. The association offers services such as a residential care unit with 24-hour nursing care for children separated from their parents as a result of HIV/AIDS as well as counseling and in-home respite care. Additionally, the association offers summer day camp and supportive housing for formerly homeless families living with AIDS.

**Use(s) of ACF Program Grant Funds:** The Children's Place Association, in collaboration with the AIDS Legal Clinic of Chicago, will continue the Illinois Department of Children and Family Services (IDCFS) Family Options program. Children's Place's "Lifelong Families," program enhances IDCFS's model of permanency planning with additional comprehensive services and then applies that model to especially high-risk HIV/AIDS-infected families. As a result, eighty high-risk families, inclusive of one-hundred and sixty children will receive comprehensive and permanency planning services. Further, continued research will be conducted in the Family Options model of services in order to examine the
potential for more comprehensive services to be provided to the families.
