**ABSTRACT:**

**Organization Description:** The NRCSNA will assist States, Tribes and other child welfare organizations (STOs) to build their capacities to integrate policy and practice; to develop, expand, strengthen and improve the quality and effectiveness of adoption services to children in the public child welfare system; to effectively implement Federal legislation administered by the Children's Bureau; and to establish effective collaborations involving all stakeholders, including youth, to promote public-private coordination of adoption programs.

**Use(s) of ACF Program Grant Funds:** The NRCSNA will provide technical assistance, training, consultation, curricula, workshops, policy and practice briefs/guidelines/protocols; a twice yearly newsletter, The Roundtable; a web site; and other written materials to facilitate capacity building. These interventions will focus on program planning and development, policy development, practice knowledge and skill enhancement/professional development, policy-practice integration, and continuous policy/program evaluation and improvement. Additionally, we will promote professional development of minorities in the adoption field.
through a yearly Minority Adoption Leadership Development Institute. The intermediate result is that STOs will have increased capacities to attain the Child and Family Services Reviews' "timeliness to adoption" standard. The end result is that children/youth will be safe, in permanent adoptive placements, where appropriate, and achieving at their maximum capacities - cognitively, socially, emotionally, physically and spiritually.
